

AGAPI DAYS III

LAB KARI ASTALA

Aula C-17-520 Departamento de Matemáticas
Facultad de Ciencias. Universidad Autónoma de Madrid.
June 4th, 2018

10.30-11:10. **Bernd Kirchheim** (Universität Leipzig, Germany). “Baire category and the restriction of contractions”.

11:20-12:00. **Julio Rossi** (Universidad Buenos Aires, Argentina). “Games for eigenvalues of the Hessian and concave/convex envelopes”.

12:10-12:50. **Fernando Charro** (Universidad Autónoma de Madrid, Spain). “The Monge-Ampère equation: Classical local applications and recent nonlocal developments.”

15:00-15:40. **Victor Arnaiz** (ICMAT, Spain). “Quantum limits for KAM families of vector fields on the torus”.

16:00-16:40. **Matteo Muratori** (Politecnico di Milano, Italy). “Long-time asymptotics of the porous medium equation on Riemannian manifolds with (very) negative curvature”.

16:50-17:30. **Jan Kristensen** (University of Oxford, UK). “Regularity and uniqueness results for minimizers”.
